List of Figures

1 General

The DOC package contains the online help as a complete web site, which is available from the internet too.

2 A short Receipt

The setup is quite simple, the steps required are:

1. Install BASE and DOC-package.

The shared installation of rpm-packages could be performed by:

```
yum install 'ctys-*
```

or

```
rpm -i ctys-base-<version>.noarch.rpm  
rpm -i ctys-doc-<version>.noarch.rpm
```

The shared installation of tgz-packages could be performed by:

```
tar -C /opt -zxf ctys-base-<version>.tgz  
tar -C /opt -zxf ctys-doc-<version>.tgz
```

Private link and activation for a user including setup of personal configuration files.

```
/opt/ctys-<version>/bin/ctys-distribute -F 1 -P uhl
```

The following call replaces previous configuration files.

```
/opt/ctys-<version>/bin/ctys-distribute -F 2 -P uhl
```

2. When a local download mirror for software distribution is required, just copy the archives into the directory

```
<install-base-dir>/ctys-<version>/downloads
```

Which is referred to by a symbolic link from the directory

```
.../doc
```

The default path of 'downloads' for rpm-packages is:

```
/opt/ctys-<version>/downloads
```

The default path of 'downloads' for the local installation within a users HOME is:

```
$HOME/lib/ctys-<version>/downloads
```

3. In case of Apache-Webserver just set a symbolic link:

```
ln -s /opt/ctys-<version>/doc /var/www/html
```

Do not forget the 'FollowSymLink' option and the permissions for each entry of the whole source path.
